INSTANT REBATES!

Point-of-Sale Foodservice Rebate Program

Help Save Money, Energy and Water!

Eligible SoCalGas® customers that purchase and install qualifying high-efficiency natural gas foodservice equipment may be eligible for discounts at the register through the Instant Rebates! program. For more information, contact or visit a participating vendor. See list on following page.

Qualifying Foodservice Equipment

There are various types of eligible natural gas foodservice equipment with rebates of up to \$2,500 per cavity. For a full list of qualifying equipment, download the Foodservice Technology Center's "SoCalGas Qualifying Products List" at: www.fishnick.com/saveenergy/rebates/

Qualifying Equipment	Rebate	Estimated Lifetime Savings ¹	Estimated Percent Savings ²
Steamer	\$2,500 per cavity	\$42,500	75%
Rack Oven	\$2,000 per cavity	\$21,250	40%
Combination Oven	\$1,100 - \$2,400* per oven	\$14,450	50%
Conveyor Oven	\$750 per oven	\$9,350	25%
Fryer	\$749 per vat	\$8,500	50%
Griddle	\$100 per foot	\$4,250	30%
Convection Oven	\$500 per cavity	\$3,400	35%
Pre-Rinse Spray Valve	\$20 per unit	\$850	40%

*Rebate varies by number of pans

Earn Lifetime Savings with High-Efficiency

Major cooking appliances account for almost 35 percent of the average restaurant's energy expenditures.³ Efficient equipment can decrease your energy use by as much as 75 percent.²

High-efficiency equipment uses less natural gas and water, so you pay less on your utility bills.

1. Lifetime savings costs calculations are based on 365 days/year and 12 hours of usage per day (with exception with pre-rinse spray valves that are used 1 hour a day), a gas rate of \$0.85/therm, a combined water/sewer rate of \$7/CCF, and efficiency values from the Foodservice Technology Center and Investor Owned Utility work papers. Percent savings represent the ratio of the total lifetime cost of a standard-efficiency unit to that of a high-efficiency unit of equivalent size and capacity. Actual savings may vary. Calculations dated on 10/13/2016.

2. Energy consumption savings are based on a comparison of annual gas consumption for high-efficiency and standard-efficiency units of equivalent size and capacity. Actual savings may vary. Calculations dated on 10/13/2016.

3. Energy consumption for commercial kitchens based on Energy Star study: https://www.energystar.gov/ia/business/small_business/restaurants_guide.pdf.

Instant Rebates! Point-of-Sale Foodservice Rebate Program

Receive a discount directly at the register when you purchase qualified natural gas foodservice equipment from a participating vendor (see below). Additional vendors may be enrolled in the program and can assist with your instant rebates.*

For more information on the Instant Rebates! Point-of-Sale Foodservice Rebate Program, please email InstantRebates@energy-solution.com or call (714) 787-1098

Energy Solutions is the SoCalGas authorized contractor responsible for administering this program through 12/31/2017.

The Instant Rebates! Point-of-Sale Foodservice Rebate Program is funded by California utility customers and administered by Southern California Gas Company (SoCalGas®) under the auspices of the California Public Utilities Commission, through a contract awarded to Energy Solutions. Program funds will be allocated on a first-come, first-served basis until such funds are no longer available. This program may be modified or terminated without prior notice. SoCalGas makes no warranty, whether expressed or implied, including warranty of merchantability or fitness for particular purpose of selected goods and services. California customers who choose to participate in this program are not obligated to purchase any additional services offered. Actual savings may vary from the estimated savings set forth herein and will depend on various factors, including geographic location, weather conditions, equipment installed, usage rates and so forth.
